4/25/70

Dear Mary,

My mind to get your letter of the 22 and to learn from Irch, who phoned to invite Paul to return via Dallas, that you had gone to Hawaii. Best medicine, I'm sure.

The carbon I sent was to background you on the Skolnick business. More is developing. I've seen of it on stenotype reels. I have all sorts to machines, including a stenotytte, rather, but that one is belt, not reel.

We'd love you to come here, August or whenever you can. We have the space, not luxurious, but I think you'll find it adequate. I'll pick you up and bring you here, then deliver you to airport or wherever you want to go.

To update you with what I hope to have accomplished by your return, I have drafted a complaint against Skolnick and will file it when I can arrange. I've written the clerk to see if I can by mail and through friends I'm trying to arrange a TV confrontation. If I get out there, I'll file in person and seek a lawyer to see if the stations that aired him before he filed the suit can be held accountable for damages. If nothing else, as I earlier indicated, this can diminish or eliminate the bad news when he is tossed out of court.

If he sends you any letters, I'd like copies, for you have no way of knowing what may or may not be significant on this. He is a slick liar and a skilled publicist and molds all with a total lack of scruple presented as devotion to the highest and most unselfish principle. To complete the picture of a totally distorted man, tragically but is both paraplegic and bright.

Sincerely,
